

Unit Dose™ Microbiological Controls

- Pellets individually packed in vacuum-sealed glass vial
- Ready-to-use, no dilution needed
- Pellets dissolve instantly
- Requires no preparation, enrichment, or pre-incubation
- Unit Dose cultures precisely deliver less than 100 CFU per pellet
- Precise inoculation – between pellet precision is less than 10% RSD
- Unit Dose CRMs are great for control chart preparation
- Robust and traceable – never more than two passages from the primary culture
- No royalty fee added to invoice
